Pediatric conferences always been at the forefront to support and encourage the scientific and techno researchers. We are glad to announce "3rd International Conference on Pediatrics, Neonatology and Healthcare on May 24-25, 2021 an Online/virtual event.

Pediatric Healthcare 2021 is a get together of the experts in the field of pediatrics. It majorly provides keynote forums and lectures by eminent professors, academicians, pediatricians, industrialists, young researchers. The conference also welcomes the participation of Directors, Presidents, CEOs, delegates and industrial executives from Pediatric Pharmaceutical and Healthcare sectors making it a platform for global networking promoting business relationships, exchanging ideas, encourages the upcoming researches and researchers under the special category "Young Research Forum."

Pediatric Healthcare 2021 is inviting all enthusiastic young researchers, scientists, Young Investigators, Post-graduate students, Post-doctoral candidates. We are introducing **Young Scientist Awards** an initiative to support early career researchers in their quest to advance the frontiers of Pediatrics and its related departments. The young researcher award has been designed to distinguish outstanding young scientists and researchers who has made remarkable contributions in the fields of Pediatrics, Neonatology and Healthcare. Pediatric Healthcare 2020 will make every effort in providing a professional development opportunity for early career academicians by meeting experts to exchange and share their experiences on all aspects of pediatrics. This is open to PhD students, post docs, researchers, scientists throughout the world.

During this crisis, avoiding mass gatherings and maintaining social distance is must. In order to conduct the event as per the scheduled we have come up with the virtual event. Online event aims to support all scientists and scholars from all over the world in delivering their ideas by a safe and successful event. The goal of online event is to make international online events as safe as possible from public health risks of the Covid-19 with technical support to host for events. Conference Series always been at the forefront to support and encourage the scientific and techno researchers and will be in future too.

A **webinar** is an engaging online event where a speaker or small group of speakers, delivers a presentation to a large audience where in the audience who join in live can type questions/leave feedback using the available interactive tools. It allows for live interaction between presenter and the online attendees. Attendees can interact via chat and messaging and use their microphones to speak during the Q&A portion.

When you are registered to attend the webinar you receive an email (usually 2 days before the event) with a web address, from PC or laptop click on the web address of the webinar. Recorded versions of live webinars are available for viewing within a few minutes of the live webinar's completion. Recorded webinars can get immensely boring.

Benefits:

- Since Webinars take place over the Internet directly on your computer, there is no need to leave the office or factor in travel time. Mobile devices are also making it easier to attend Webinars.
- Besides the fact that there are no travel costs involved with attending a Webinar, the price of registration is typically much lower than other options.
- Unlike attending traditional conferences, you can participate in webinars right from your desk.
- Access to all sessions online
- E-Handbook & E-Conference Kit
- E-Certificate of Presentation
- Young Researcher Award is open to any person from any place across the world who has been involved in pediatrics, neonatology and related research activities -applicable for Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, junior faculty
- Online publication of Abstract and Biography in the respective webinar supporting journals, can also submit full length articles.
